ROBOTIC APPLICATION

Our core team members comes from Robot OEM and automotive Industries, after implementing numerous Projects.

We have Robot programmers certified by Mercedes and Volkswagen for standard programming such as Integra and Vass.

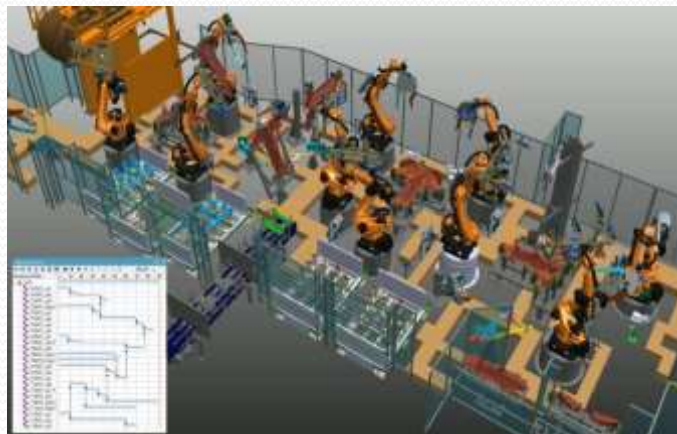

We provide maintenance services for various industrial robot.

We provide repairing services for servo drives, teach pendant, electronic cards, PCI cards etc.

TRAINING SERVICES & SIMULATION SERVICES

We have qualified Robot trainers in our team who have more than 10 years of experience and delivered various trainings to customers employees. We provide trainings in following modules Basic, advance level as well as standard related training modules

We provide simulation services along with our trusted global partners who have done major BIW projects world wide. VIBN is also done for VW, AUDI etc

PROJECT MANAGEMENT SERVICES

We provide the project management / consultancy services for both automotive firms as well to line-building/ system integration firms

We have well experienced team players who have a vast experience of handling the BIW projects at various automotive firms and provide support in hand-over phase of numerous projects.

HD TEAM

Our team consist of Robot programmers with following qualifications

- PLC & Robot Programmers have rich exposure of BIW applications

- Have sound knowledge of Automotive standards like

TESLA programming standards, Volkswagen programming standards, VASS, TATA Motors programming Standards, Suzuki programming standards,

Mercedes Benz Standard, Integra

MAGNA COSMA Standards etc.

SEAT Motors

Mercedes Benz

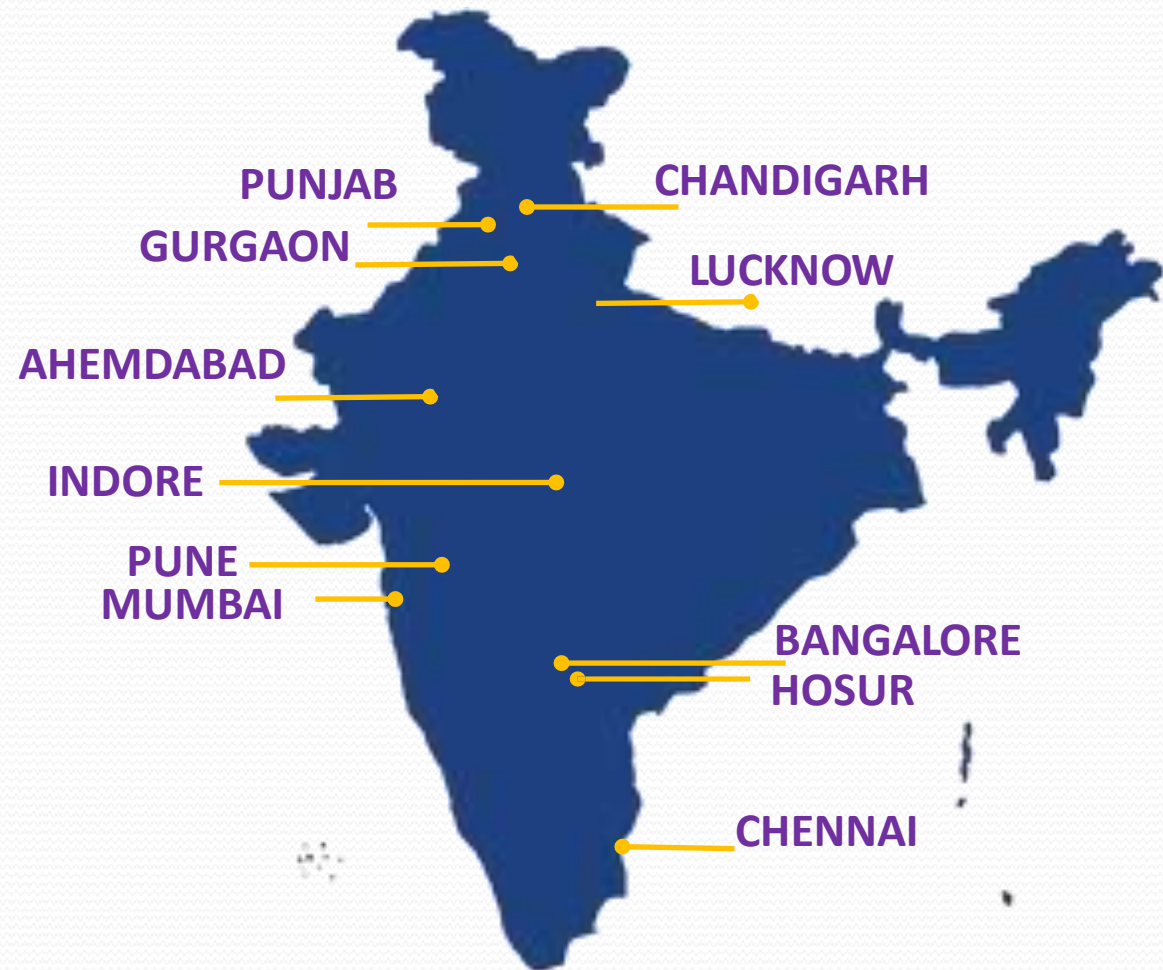

- Worked with people from different culture like German, Japanese, Chinese, Koreans, Americans, Spanish, Austrians as well as British

BRIEF DESCRIPTIONS
OF
SOME OF OUR
EXECUTED PROJECTS

MAJOR PROJECT

Tesla Inc., California, USA.

Project: Model-Y – BSIL, BSIR, BSOL, BSOR, FR1, FR2, UB, Re-Spot Area

MAJOR PROJECTS

VW IPL, Pune India

- Projects:
- i) SK216 and VW216 Underbody Subassembly area
 - ii) VW250/VW251/SK216 Main Line Measurement

Our team players were involved in various projects executed at SAVW India during Pune 2.0

ŠKODA | VOLKSWAGEN
ŠKODA AUTO Volkswagen India Private Limited

MAJOR PROJECT

SEAT, SPAIN

Our team executed project on VW VASS-5 programming standard in SEAT Spain for above mentioned models in closures.

Robots: KUKA KRC4

No. of Robots in our Scope 160

MAJOR PROJECTS

VW IPL, Pune India

- Projects:
- i) SK250 and VW250 – Closure, Main Lines, Underbody
 - ii) VW251 & SK251 – Closures, Main Lines, Underbody
 - iii) VW250-2 – Main Lines and Underbody

Our team players were involved in various projects executed at VW India during their tenure with previous employment or during HD Abotix.

We have VW old standard as well as VASS experience and provided Robot and PLC services to line-builders during project execution phases and later-on direct to VW during production support
